3 YEARS OF SOLUDO SOLUTION

...The Soludo Magic lies on the unprecedented transformation of all sectors of Anambra State with lean resources and without borrowing

SOLUDO: WHEN PHILOSOPHER BECOMES KING

By Law Mefor

In his seminal work, 'The Republic', the renowned Greek philosopher, Plato, introduced the idea of the Philosopher King, which makes the indisputable argument that a leader needs to be endowed with wisdom and knowledge to make an extraordinary impact. Plato's statement on the philosopher king is exemplified by Anambra State Governor, Prof Chukwuma Charles Soludo CFR, and his visionary and daring leadership, which is lifting the state into prosperity and livability in an unprecedented way.

The governor, Soludo, has proved that everything rises and falls on leadership, exactly why leadership is the single most critical factor responsible for the development and happiness of the people or lack of it.

Soludo's Peoples Manifesto is Anambra reimagined and designed to transform the State into a Dubai-Taiwan in due course. The foundation has been fully laid, and building in most aspects commenced. Soludo has added to his vision of a new Anambra as Africa's Silicon Valley, with IT and digital infrastructure, digital literacy, and manpower. The digital infrastructure is being laid, and the 1 million digital tribe to own and power the future Anambra as one smart mega city is being trained. The first batch of 25,000 has already graduated and is empowered to be useful at home and employable abroad.

Cont. from page 2

SOLUDO'S GOVT @3:
THE POWER OF TRANSGRESSIVE AND TRANSFORMATIONAL LEADERSHIP

By Law Mefor

For Ndi-Anambra, who have witnessed a dramatic transformation of their state under the capable hands of Governor Chukwuma Charles Soludo, CFR, it is now a kind of bragging right. 'Solution Is Here' is what they say for that reason! The people have benefited greatly from the genuine solutions that Governor Soludo's bold and innovative leadership and management of lean resources have brought about. It might be difficult to keep track of Soludo's uncommon solutions and how they impact Anambra's present and future.

Let's touch on a few unique ones. The railway is coming as a major component of the state's transportation masterplan. The first beltway connecting Onitsha, Nnewi, Ekwulobia, and Awka, with spurs to additional towns, has been designed by the Soludo government. The renowned CPCS Canada, a world leader in infrastructure construction and management, provided consulting for the Anambra railway project.

As seen in the dualisation of the

Cont. from page 7

Toxic leadership and extraordinary leadership are the two extremes on a continuum. While exceptional leadership is the best that leadership can offer, toxic leadership, the opposite, leaves the organisation or state/nation in a worse state than when it met it. The former is disruptive, and it is to it that a country or organisation owes its revolutionary reforms and significant advancements in development, like those that Governor Soludo is bringing about in Anambra State.

When Plato developed the concept of the philosopher king as the ideal leader, he certainly had Soludo in mind. Plato effectually said, "The society we have described can never grow into a reality or see the light of day... until philosophers become rulers in this world, or until those we now call kings and rulers really and truly become philosophers, and political power and philosophy thus come into the same hands." Governor Soludo successfully combines political sagacity with philosophical sobriety, and he has ingrained the word "solution" into the political system.

He recognises that security is the first fulcrum of a stable society. Before he came into office, Anambra State was under the siege of daredevil criminals who had gained virtually entire control of eight local governments in Anambra State, namely Aguata, Ihiala, Ekwusigo, Nnewi North, Nnewi South, Ogbaru, Orumba North, and Orumba South.

The situation was serious and necessitated an unorthodox response. For the first time in the history of Anambra State, Governor Soludo founded the Ministry of Homeland Security and also appointed a Special Adviser on Security and much later, added a Special Adviser on Community Security. The task of confronting the raging criminals head-on fell to members of the Anambra Vigilante Group (AVG), which is now retooled and rechristened Agunechemba by the new Anambra State Homeland Security Law 2025, which is pivotal in the new strike force, Operation Udo Ga-Achi, launched by Governor Soludo on January 18, 2025, when the Homeland Security Law was also signed into force.

The so-called "unknown gunmen," initially thought to be Fulani herders, were found to be mostly Igbo, over 70% of whom are from outside Anambra, who have migrated to the rich state for kidnapping and robbery, as the insecurity war reveals. Full-blooded Igbo men and women are essentially responsible for the insecurity in the state. The Soludo government had to change gears to fully confront insecurity. There are now more boots on the ground (over 2000 men and over 200 trucks and SUVs to ensure statewide coverage), a Command Control Centre, a top-of-the-range tracking system, and a Call Centre for information on the criminals in an inventive way to address the nearly intractable security challenge. "If you see something, say something, earn something! Call 5111 and the call centre will process the Intel with the utmost confidentiality." "Everything technology, technology everywhere" has become the mantra of the Soludo government.

Anambra is now too hot for robbers, fake and evil Ndi-Dibia, Ndi-Ezenwanyi, and the Okeite magic pot providers since Soludo launched Operation Udo-Ga-Achi and unleashed the Agunechemba on the criminals, resulting in calm returning to Anambra and Oso Soludo (scampering of criminals, including fake and native doctors and fake prophets). Receding insecurity has now revealed Soludo's transformation of Anambra State with historic infrastructure improvements like the construction of stone-base roads, bridges, flyovers, and dual carriageways; the return of drinking tap water to the urban centres; the first-ever gift of a government house and lodge to the state; the creation of the state's ultra-modern Solution Fun City; lighting up the state with streetlights everywhere; constructing general hospitals and schools; hiring thousands of teachers, doctors, and nurses; and more—all without borrowing one kobo.

Soludo is also developing three brand new cities, namely Awka 2.0, Onitsha 2.0, and Anambra Mixed Industrial City (AMIC). The railway infrastructure is also in the offing. With free education up to senior secondary school, which is breaking generational poverty transfer, and the 1Youth, 2Skills programme and digital and IT training by the Solution District (SID), the philosopher king, Professor Chukwuma Soludo, is not only physically constructing the new Anambra but also developing a digital and literate population that will live in the emerging new State.

All of Anambra State's vital signs are under the philosopher king's control. Soludo arrived prepared and started to work in Okpoko the next day after swearing in. Today, Okpoko, the largest slum east of the Niger, is now a new haven, a signature of Soludo's urban regeneration. He is always grateful to Ndi Anambra for hiring him for the position. And the people are extremely grateful for the excellent work that the hard-working Mr. Governor has done. One happy citizen has nicknamed Soludo "Oluatuegwu"—He who never hesitates to take on any big project!

Soludo is probably the only governor, past and present, to reverse capital expenditure and concurrent spending parity in the state's annual budget up to 70% in favour of capital. Anambra State's 2025 budget is currently 77% capital and barely 23% recurrent. This explains why Soludo has accomplished so much without taking out loans in about three years he has been in office. He has won awards for having the highest fiscal discipline and transparency in the nation. He has also been awarded Governor of the Year and Man of the Year by major newspapers in a variety of categories, from tech to infrastructure to human capital development. In the recent primary health care national challenge, Anambra was ranked first in both Southeast Nigeria and Nigeria overall.

The antecedents of Soludo are indeed luminous. Let's not forget that before he even became Governor of Anambra State, Soludo had saved the Nigerian economy from collapse through his 2004 banking consolidation project when he was the Governor of the Central Bank of Nigeria (CBN). 'The Power of One Man: How the Soludo-Engineered Consolidation Transformed Nigerian Banks to Global Players', written by Dr. Ray Echebiri, was presented at Eko Hotels & Suites, Victoria Island, Lagos, on Saturday, July 6, 2024, to commemorate the 20th anniversary of the revolutionary banking reforms that, under Soludo's supervision, resulted in the emergence of 25 banks that beefed up their capital base to a minimum of N25 billion. Before Soludo's banking consolidation, the combined size of all Nigerian banks could not equal one South African bank. The recapitalisation initiative ultimately created 25 large banks out of the 89 struggling banks that were previously in existence in the country.

In other words, Soludo is a philosopher king who has used his deep knowledge and affective commitment to govern Anambra State. His impressive credentials, which include the coveted First Class in Economics from the University of Nigeria, Nsukka (UNN), are so obvious for everyone to see.

As Soludo has proven, the future becomes the present when a philosopher becomes king. Soludo has brought forward Anambra's future with his master plan for the physical and human capital development of Anambra State. By cleansing traditional worship, ridding it of fake and evil native doctors, and refocusing Ndi Anambra on their traditional path—Uche, Uchu, and Egwu Chukwu (i.e. integrity, hard work, and fear of God), a renewed Ndi Anambra is emerging.

Indeed, Anambra, as one smart mega city and the Silicon Valley of Africa, is on the horizon, thanks to the philosopher king, Soludo, why Ndi Anambra say: Solution is here and call Soludo Mr Solution! ·

3 YEARS OF TURNING DREAMS INTO REALITY - DOING MORE WITH LESS

- The Soludo Administration is redefining governance in Anambra State. With a clear vision and decisive action, we are tackling the most pressing challenges and building a modern, prosperous, and sustainable future for Ndi Anambra.
- Through strategic investments in infrastructure, industrialization, digital transformation, and human capital development, Anambra is positioning itself as a leader— not just in Nigeria, but in Africa.
- This report captures the remarkable strides made in just three years—the milestones, the impact, and the unstoppable momentum towards a livable and prosperous homeland.
- Welcome to the Anambra Transformation Story

Our Vision

"To build a liveable and prosperous smart megacity" (A preferred place to live, learn, invest, work, relax and enjoy)

Our Outcome

To become Africa's new axis of sustainable prosperity (For Ndi Anambra, living outside Anambra will be by choice and not under duress)

DOING MORE WITH LESS

The Soludo administration has mastered the art of achieving more with less, ensuring that every Naira works harder for Ndi Anambra.

In three years, we have spent #572.7 billion ($734.7million) - 65% of what a previous administration spent in 2013 alone - yet we have delivered transformational projects across infrastructure and Economic transformation, human capital development, Security Law & order, Governance & Rule of Law, Environment and urban renewal.

How did we do it?
Strategic prioritization—focusing on high-impact projects. Prudent financial management—eliminating waste and corruption. Innovative solutions—leveraging technology and partnerships.

The result?
A thriving Anambra, built on efficiency, accountability, and vision. This is the power of smart governance.

SECURITY, LAW AND ORDER

SECURITY TRANSFORMATION & NEW HOMELAND SECURITY LAW

The Soludo administration has taken decisive action by enacting a new Homeland Security Law, establishing Agunechemba — a dedicated state security force to strengthen crime prevention, intelligence gathering, and law enforcement support. This first-of-its-kind security initiative ensures that every community, LGA, and urban center is protected against rising criminal activities, from robbery and kidnapping to cyber fraud and ritualistic crimes.

Beyond security, Agunechemba is also a moral corrective force—fighting the growing culture of get-rich-quick schemes, ritualism, and fraud that threaten our cherished Igbo values of hard work, integrity, and enterprise. Since then kidnappers and criminals are on the run! Amnesty is open to criminal gangs - lay down your arms or face the full force of the law! Incentives exist for citizens to blow the whistle on criminals pretending to be liberators. Anambra is setting the pace for smart, structured, and strategic security governance.

ANTI-TOUTING TASK FORCE

Under Soludo, touts are becoming history! The Special Anti-Touting Squad (SASA) is restoring sanity in markets and motor parks, making life easier for traders and commuters.

DIGITAL JUSTICE

Soludo has brought Anambra's judiciary into the digital era! With virtual hearings, e-filing, and digitized legal processes, justice is now swift, transparent, and accessible!

JUDICIAL POWER INFRASTRUCTURE

Soludo is powering justice—literally! With solar energy in 30 courts and judges' offices, no case is delayed due to power failure. The rule of law now runs on clean, uninterrupted energy!

SMALL CLAIMS COURT

Soludo has made justice affordable and accessible! The new Small Claims Court ensures businesses and individuals resolve minor disputes swiftly—no long waits, no legal bottlenecks!

ALTERNATIVE DISPUTE RESOLUTION CENTER

Not every dispute needs to go to court! Soludo's Multi-Door Courthouse is giving citizens faster, cost effective alternatives to litigation, reducing case congestion and promoting peace.

MISSING PERSONS BUREAU INITIATIVE

Anambra is setting the pace! Soludo has launched Nigeria's first Bureau of Missing Persons, ensuring lost loved ones are found and reunited with their families. Safety and compassion in action!

INFRASTRUCTURE & ECONOMIC TRANSFORMATION

REVOLUTIONIZING ANAMBRA'S INFRASTRUCTURE

Anambra is on the move! Governor Soludo is delivering 700km of high-quality roads across all LGAs, with 410km completed and an additional 400km rehabilitated through the "Zero Pothole Initiative". This historic investment is unlocking economic opportunities, boosting trade, and accelerating rural development, making Anambra the most accessible and business-friendly state in the region!

Completed Roads (2022-2024)

Okpoko roads	Restoration works at Nkissiopi Bridge at Onitsha-Nsugbe-Otuocha-Nsukka Federal Highway
Umueze Anam-Mmiata-Nzam Road (Section 2: Mmiata Nzam) with a bridge	Creek Roads, Onitsha
Rehabilitation/reconstruction of selected roads in Onitsha north LGA – Akpaka Road- 2.896km.- Federal Housing Estate link road- 0.973km -Spur to 33 (Idoko Hotel Drive)-0.585km-Akpaka to Nsugbe Rd – 3.341km.	Reconstruction of some selected streets in Onitsha: Ziks Avenue- Ozomagala Str. And link road
Rehabilitation of failed Carriage and Embarkment at Mmili John section at Oba-Ojoto Road/Dredging of Mmili John River	Reconstruction of Miss Elems Road, Onitsha
Construction of Niger street – Sokoto road with 3mX4.5mx15m long water crossing and 1.1m storm water channel	Construction of Premier road, Onitsha
Ifite Ogwari Road with a spur	Igboukwu-Ekwulobia with spur to Isuofia Nanka
Reconstruction of Port Harcourt street Onitsha	Construction of Isuofia – Nanka with spur to Nanka/off Obina Adimorah
Reconstruction of Ugwunwanosike Ogidi Building Materials Market Road	Revalidation of the construction of the community road at Mbaukwu from St. Lawrence Anglican Church – Ngene Mmiri shrine – Iyi Utuko stream – Ogado village

Rehabilitation/Construction of Amansea-Ebenebe-Ugbenu-Awba Ofemili-Umuerum-Omor Road phase 1	Contruction of Achina – Onne – Ogboji
Construction of Igwe Ezechi Okoye road at Ifitedunu, Dunukofia LGA	Construction of Isuofia Township roads (phase 1) as an extension of the Igboukwu-Ikenga-Ekwulobia ongoing road project with a spur to Isuofia – Nanka
Construction of Awkuzu-Umunya Road in Oyi LGA, Anambra state	Rehabilitation works on flood section of Isuofia – Igboukwu road
Construction of Amawbia internal Roads (Lot 1) Awka south LGA, Anambra state	Construction of Okpunoeze-Nnewi Hotel Road
Remedial works on Onitsha – Owerri Road	Construction of Amansea-Ndiukwuenu –Manu forest – Awa- Ufuma Rd
Construction of Amansea-Ndiukwuenu –Manu forest – Awa- Ufuma Rd	Isuofia Roads (Lot B)

FLYOVER AND DUAL CARRIAGEWAY

Soludo is redesigning Anambra for the future! The Ekwulobia Flyover, Amawbia-Ekwulobia-Uga, Agulu-Nnobi-Nnewi, and Ozubulu-Okija dual carriageway, along with a new bus terminal, are making travel faster, safer, and stress-free. The new Aroma Link Bridge is seamlessly connecting Awka—goodbye traffic, hello smooth rides

STATEWIDE WATER RESUSCITATION!

Soludo has ended Anambra's water scarcity! After decades of failed projects, his administration has revitalized water schemes, bringing clean,

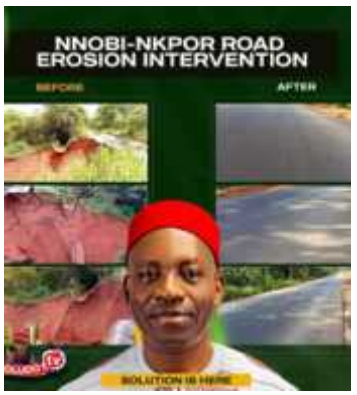

reliable water to urban and rural communities. A fundamental right, now restored!

RESTORING PUBLIC INFRASTRUCTURE

Soludo is reshaping Anambra's public institutions! A modern Government House and Lodge after 33 years of failed attempts is almost completed, a revamped House of Assembly, and a revived Awka Shopping Mall Anambra is getting the infrastructure it deserves

EROSION-CONTROL MILESTONES!

Soludo is safeguarding communities from erosion disasters! With major projects completed in Ebenator, Nnobi, Ezi-Oko, and Awka, homes and businesses are safe again. Ongoing interventions in Onitsha Owerri Road and Ozubulu mean even more communities will be secured soon!

PIONEERING NEW URBAN DEVELOPMENT

Soludo is building the cities of tomorrow! Awka 2.0 and Onitsha 2.0 will transform Anambra's economy.

POWERING ANAMBRA'S FUTURE

Soludo is lighting up Anambra sustainably! 25,000 streetlights converted to solar, 1,000 new ones installed- reducing costs, boosting security, and energizing the night economy. The future shines bright!

SOLUDO'S GOVT @3:

THE POWER OF TRANSGRESSIVE AND TRANSFORMATIONAL LEADERSHIP

magnificent route from Amawbia to Agulu via Ekwulobia and Uga up to the Imo State border at Akokwa, with a gigantic flyover at Ekwulobia, Mr. Governor is unfazed by the share size of projects. The dualisation of the roads from Agulu to Nnewi and Ozubulu to Okija up to the Onitsha-Owerri expressway, as well as the dualisation of Nwa-Agu Agulu to Nnobi to Nnewi, is proceeding at a fast pace. As far as Soludo is concerned, nothing can impede the growth of Anambra State.

Given Soludo's peerless sense of mission, the vision of Anambra State as a single smart megacity connected by intrastate rail and well-asphalted highways is already coming true. To achieve value reorientation tending towards a new Onye Anambra, the Soludo government is cleansing the state of dangerous native doctors and warped ideologies that fuel criminality. This drive has culminated in what is now called 'Oso Soludo' as these categories of criminals are now exiting the state in droves.

According to Mr. Governor, the true enabler of the Anambra Smart Megacity is a sustainable environment. Unquestionably, under Soludo's wise leadership, Anambra is progressing in several areas, including road construction, youth empowerment, cleaner cities, landmark projects, environmental sustainability, and budgetary excellence. It is worth repeating: Solution is here! His every step designed to transform Anambra into a prosperous and livable city, underpinned by some key values of integrity, compassion, inclusiveness. Soludo's leadership style and philosophy is a sort of a blend of neo-Welfarism and Progressivisms.

By targeting not only the criminals but also those who enable them, such as fake Ndi-dibia and false prophets, Governor Soludo is giving the entire nation the lesson it needs to fight insecurity. In addition to insisting that they be put through forensic testing, he has demystified the Okeite magic pot phenomenon. Since all of the criminals, kidnappers, and those who help them are on the run in what has been dubbed "Oso Soludo," the institutions of Udo-Ga-Achi and Agunechemba can be considered the ace of spades because the new security architecture is anchored on a new homeland security law and technology – Agunechemba and Operation Udo Ga-Achi are based on massive deployment of technology; equipment and investment in logistics.

On his second day in office, Mr. Governor marched into the Okpoko slum in the Onitsha suburb, and between then and now, turned the slum into a haven, complete with asphalted roads, a general hospital, streetlights, pipe-borne and other amenities. Several significant projects, including those at Okpoko, are commissioned during the week-long celebration of the third anniversary of the Soludo government. As you may recall, Okpoko was formerly the largest urban slum east of Niger, home to up to 500,000 people, but lacked all social amenities and facilities. Today, conversely, it has been transformed into a new haven and a symbol of urban renewal.

With the arrival of Governor Soludo, the vibrant metropolis of Onitsha has seen a revitalisation. All of Onitsha's clogged gutters have been cleared of silt, and paved roads are now the norm rather than the exception. Today, the Ochanja market roundabout's water fountain is a pleasure to behold, a pristine offering suitable for leisurely viewing.

On Saturday, November 25, 2023, Soludo created history by becoming the firsti governor of Anambra State to visit Olumbanasa in the Anambra West Local Government Area, which was previously one of the inaccessible parts of the state. Mr Governor said, "My heart brims with emotions so profound they transcend the scope of language," describing the emotional journey he had to make by boat across the waves. Since then, he has added amazing infrastructures to the once-forgotten area and constructed a road that connects the LG's headquarters in Nzam, which may be the only LG headquarters without a tarred access road. Infrastructure is on a scale unprecedented under Soludo.

Once referred to as a glorified hamlet, the capital city of Awka has seen a full transformation since the introduction of the Soludo Solution. Soludo broke the jinx by constructing the state-of-the-art Government House and Lodge in Awka, 34 years after Anambra State was created. A mini city within the awka city, the government comprises over 30 buildings, which includes an amphitheater that seats over 1000!

The legislative branch's ambience and functionality are being improved by the extensive renovation and modernisation of the State House of Assembly Complex in Awka. Dr Alex Ekwueme Square's ongoing extensive modernisation will improve the square's overall appearance, usability, and liveliness.

The ongoing five urban water schemes—Awka, Otuocha, Nnewi, Obizi, and Greater Onitsha—have brought back pipe-borne water to Anambra. These main Anambra cities now have pipe-borne water again. Potable water is now available for Ndi-Anambra; as the taps are running once again, last seen in the 70s.

The dedication of his administration to fiscal responsibility, which won Soludo a national award, has been a key component of the Soludo solution. The governor has prioritised implementing a "do more with less" strategy, preventing financial leaks, disclosing account statements by legal requirements and reversing recurrent-capital budgetary spending in favour of capital to pave the way for development. The 2024 and 2025 budgets reflect this ratio, with 77% going to capital projects in 2025, the biggest percentage of any Nigerian state. Despite the Anambra House of Assembly's approval to borrow ₦100 billion, Governor Soludo hasn't accessed it, stating that loans should only be drawn for significant projects with quantifiable returns and with the capacity to repay.

Education and health are now the main focus of Anambra's development plan under Governor Soludo. His administration has aggressively addressed pressing issues and developed an innovative, inclusive educational system that aims to empower all children. Soludo has elevated Anambra beyond most other states by hiring 8115 teachers drawn from 18 states of the federation and establishing free education up to the senior secondary school level. According to him, education is the key to a prosperous and joyful future.

In order to address personnel shortages in the health industry, well over 1000 medical professionals have been hired. Pregnant women now receive free prenatal care and delivery, including caesarean sections. As of February 2025, over 102 thousand women have benefitted from the free antenatal and about 400 caesarean operations.

The farm-to-feed programme is the Soludo solution ace in agriculture. For young people, there is the unique One Youth, Two Skills movement. The Solution Fun City elevates Anambra's standing in the entertainment and leisure industry. Soludo's groundbreaking IT scalable and marketable digital skills and technology also steal the eagle's feather. It is becoming "Everything Technology, Technology Everywhere" as a result of the Solution Innovation District (SID) upskilling and reskilling the youth's IT and digitisation.

The potential of Governor Soludo's Solution Mandate is almost limitless. The fact is that Soludo is establishing Anambra State as Nigeria's undisputed leader in many spheres, which led to 5 national newspapers adopting him as the governor of the year in several development domains. He won awards in several domains like good governance, including innovation and technology, education, health, infrastructure, SMEs, fiscal discipline and transparency, etc.

Naturally, Governor Soludo's livable and thriving homeland would make Anambra a destination of choice rather than a departure lounge, where people may live, work, learn, and enjoy.

For those and more reasons, Ndi Anambra now say, "Solution is here" and call Soludo Mr Solution, with groups including women and students falling over themselves to purchase Professor Chukwuma Soludo's nomination form for a second term.

Soludo is not your regular politician. He is an exceptional and transgressive leader who has relied on unusual methods to attain a new height for Anambra state in less than three years.

Law Mefor, PhD, is Anambra State Commissioner for Information.

ECONOMIC TRANSFORMATION IN AGRICULTURE

AGRO-INDUSTRIAL REVOLUTION

Soludo is transforming Anambra into an agro-industrial powerhouse! Over 1 million palm and coconut seedlings have been distributed to 130,000 households, with a bold plan to plant 10 million economic trees in six years. With Ukwa, Akilu, Oji Igbo, and pawpaw added, this initiative will reduce poverty, boost income, and drive an agricultural revolution!

FARM-TO-FEED INITIATIVE

Anambra's food security is getting a major boost! Soludo's 'Farm-to-Feed' initiative will ensure access to fresh, locally grown food, empowering farmers, and creating a self-sustaining food system. A hunger-free Anambra is within reach!

SUSTAINABLE AGRICULTURE BOOST

Anambra's farmers are thriving under Soludo's leadership! With improved Vitamin A maize, nutrient-rich orange, fleshed potatoes, and high-yield cassava stems, farmers are increasing productivity, adopting sustainable practices, and securing better incomes.

The future of farming is brighter than ever!

IRRIGATION REVITALIZATION

Soludo is unlocking Anambra's agricultural potential! By revitalizing the Ifite-Ogwari irrigation system, 10,000 hectares of rice farmland are now in year-round production. More food, more jobs, and a stronger agricultural economy!

INDUSTRIALIZATION: POWERING ANAMBRA'S ECONOMIC REVOLUTION

Global Financial Partnership

Confidence attracts capital! Afreximbank and the African Development Bank (AFDB) have thrown their weight behind Anambra's Industrial City, ensuring the funding and support needed to bring this game-changing project to life. When global investors believe, you know you're onto something big!

Anambra Mixed-Use Industrial City

Anambra is building Nigeria's next industrial powerhouse, with a world class mixed-use industrial city housing pharmaceutical, automotive, and agro-processing sectors. Soludo is positioning the state as a manufacturing giant. The master plan is ready—now, Anambra is set to lead Nigeria's industrial transformation!

Pharmaceutical Hub Innovation

Anambra is becoming Africa's pharmaceutical nerve center! The Oba Pharmaceutical Central Distribution Centre will be the continent's largest open drug distribution facility, revolutionizing supply chains and making the state the go-to hub for pharmaceutical logistics. Health meets commerce, right here in Anambra!

REGIONAL LOGISTICS INNOVATION

Anambra is becoming the heartbeat of regional trade! The upcoming Onitsha 2.0 will host a logistics hub that will serve the South East and South South, making it the premier gateway for commerce and distribution. Faster trade, smoother logistics - Anambra is open for business like never before!

POWERING ANAMBRA'S INDUSTRIAL REVOLUTION

STRATEGIC MINERAL MAPPING

Anambra is unlocking its mineral riches! Under Governor Soludo, an extensive geo-exploration campaign has uncovered commercial-grade kaolin, premium glass sand, and vast iron ore deposits - paving the way for large scale industrialization.

With this roadmap, Anambra is primed to lead Nigeria's manufacturing revolution!

STRATEGIC MINING DEVELOPMENT

Anambra is staking its claim in the mining industry! With secured rights to high-value mineral deposits—including bentonite, kaolin, and lignite—the state qualifies as a prime investment destination for mining. This will fuel economic diversification, industrial expansion, and job creation!

SOLID MINERALS MANUFACTURING BREAKTHROUGH

From raw minerals to industrial excellence! Governor Soludo's administration has launched the Kaolin Processing Plant, a milestone in Anambra's industrial evolution. This state-of-the-art facility is adding value to local resources, attracting investors, and positioning the state as a key player in Nigeria's mineral processing and manufacturing sector!

ANAMBRA IS OPEN FOR BUSINESS!

The annual Anambra Investment Summit is drawing top investors, securing multi billion Naira MOUs across key industries. These partnerships are driving economic expansion, creating jobs, and transforming Anambra into an emerging economic powerhouse!

DIGITIZATION OF BUDGETING AND WARRANTING PROCESSES

Soludo is revolutionizing financial management! With a fully digitized budgeting and warranting system, Anambra now boasts faster approvals, stronger fiscal controls, and greater transparency. A government that delivers - efficiently and accountable!

ENTERTAINMENT, LEISURE AND ART PROMOTIONS

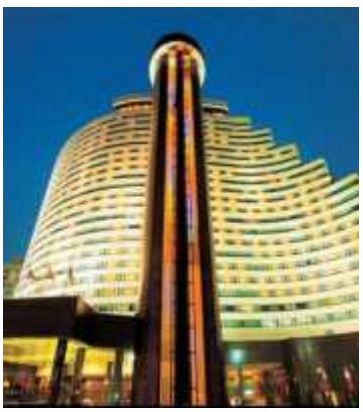

Anambra is set to become West Africa's entertainment capital! The almost complete Solution Fun City will be the largest entertainment complex in the region, offering world-class attractions and boosting tourism like never before. Get ready for a thrilling experience in Awka!

MARRIOTT HOTEL DEVELOPMENT

Anambra is stepping into the global hospitality scene! The 10-storey Marriott Hotel springing up in Awka will set new standards, attracting business and leisure travelers, and transforming the state into a premier tourism destination. World-class comfort is coming home!

CULTURAL HERITAGE PRESERVATION

Soludo is safeguarding Anambra's cultural heritage! The historic Igbo-Ukwu Museum has been upgraded and expanded, preserving priceless Igbo artifacts and creating an immersive experience that educates, inspires, and celebrates our rich traditions.

PROMOTING ARTS, CULTURE, AND FASHION

Anambra is embracing its cultural identity like never before! From the grand annual New Yam Festival to the groundbreaking Anambra Fashion Expo and Mega Arts & Crafts Exhibition, Soludo's administration is turning the state into a vibrant hub for arts, culture, and creativity.

EDUCATION

EDUCATION IS NOW FREE FOR ALL

Under Soludo, education is FREE in all government owned schools, from kindergarten to SS III, ensuring that every child has access to quality3 education.

MERIT-BASED HIRING

Soludo hired 8,115 teachers on merit, effectively eliminating classrooms without teachers in government schools.

COMMITMENT TO EXCELLENCE

Soludo is committed to educational excellence by ensuring quality education, transforming school infrastructure, and introducing a high-tech curriculum to nurture 21st-century leaders

LOWEST OUT-OF-SCHOOL-RATE

Education for every child—no one left behind! Anambra now boasts Nigeria's lowest out-of-school rate (2.9%), a testament to Governor Soludo's unwavering commitment to universal access to quality education. With continued reforms, the state is on a mission to completely eliminate out-of-school children!

SMART SCHOOLS INITIATIVE

Governor Soludo is making bold moves to ensure Anambra's students are future-ready. The state has commenced transforming 22 secondary schools into modern smart schools setting a new gold standard for contemporary education in Anambra State. With technology-driven classrooms, innovative learning tools, and a commitment to excellence, Anambra is not just preparing students for today—it's equipping them for a limitless future!

HEALTH

TRANSFORMING LIVES, SAVING FUTURES

Safe motherhood, healthy families! In just one year, 83,000 women have benefited from Anambra's free antenatal and delivery services, with zero maternal deaths recorded. This groundbreaking initiative is transforming maternal healthcare and ensuring safe childbirth for every mother!

Bringing healthcare to every doorstep! Governor Soludo is revamping 326 primary health centers, ensuring every ward in Anambra has access to solar-powered, well-equipped, and professionally staffed medical facilities. This grassroots healthcare revolution is bridging the gap and delivering quality healthcare where it matters most!

HEALTHCARE INFRASTRUCTURE EXPANSION

Soludo is transforming medical service delivery through comprehensive hospital upgrades in Enugwu-Ukwu, Umueri, and Ekwulobia, while simultaneously constructing five new healthcare facilities in Okpoko, Anaku, Fegge, Oroma-Etiti, and Enugwu-Otu. This strategic expansion ensures broader access to quality healthcare across the state.

HEALTHCARE CAPACITY ENHANCEMENT

Soludo has bolstered Anambra's medical services by strategically recruiting 1,000 health professionals, ensuring adequate staffing across public healthcare facilities. This initiative enhances service delivery and improves patient care quality statewide.

SPECIALIZED HEALTHCARE EXPANSION

Soludo is advancing medical care access through the establishment of critical facilities - a comprehensive Dialysis Center at General Hospital Onitsha, specialized Eye Center at Nise, Medical Oxygen Production Plant, and a historic Trauma Center at COOUTH Awka, strengthening the state's healthcare infrastructure.

EMERGENCY CARE TRANSFORMATION

Soludo has improved public safety with a state-wide Emergency Medical Service and Ambulance System, ensuring round-the-clock emergency response and professional medical care across the state.

Soludo is shielding Anambra from Outbreaks of Communicable diseases - Disease surveillance has been strengthened by improving the management of outbreaks such as measles, monkeypox, and Lassa fever.

STRENGTHENING WOMEN'S HEALTH

Soludo has launched 40 cervical cancer screening centers, improving access to preventive care and enhancing early detection across Anambra.

PRIMARY HEALTHCARE LEADERSHIP CHALLENGE AWARDS

Anambra State is proving that excellence in healthcare is not a dream but a reality! In a remarkable feat, the state has emerged 1st in the South East and the overall best in Nigeria, securing a prestigious $1.2 million prize at the 2nd Primary Healthcare Leadership Challenge Awards.

This victory is a testament to the government's relentless drive to strengthen primary healthcare services, ensuring quality, accessibility, and efficiency across all communities. With this recognition, Anambra is not just leading—it's redefining healthcare in Nigeria!

Building the Future of Anambra's Healthcare! - The School of Health Technology in Obosi has also received essential upgrades, leading to accreditation for seven new departments.

YOUTH EMPOWERMENT: SHAPING THE FUTURE

ONE YOUTH, TWO SKILLS PROGRAM

Soludo is empowering Anambra's youth like never before! Through the One Youth, Two Skills initiative, over 5,000 young entrepreneurs have already launched their businesses, with 8,700 more in training. A ₦2.5 billion startup fund ensures they have the capital to succeed. The future belongs to those who dare to build it!

BOOSTING SPORTS DEVELOPMENT

Soludo is redefining sports in Anambra! From launching Solution FC in the Nigeria National League to organizing the Traders Cup and ASATU Cup with life-changing rewards, he is investing in young talent and cultivating a winning sports culture. The next football stars are emerging from Anambra!

ANAMBRA IS BUILDING THE FUTURE - ONE DIGITAL BREAKTHROUGH AT A TIME!

In just two years, Anambra has made bold, decisive moves to become the technology innovation heartland of Africa. Under Governor Soludo's "Technology Everywhere, Everything Technology" vision, the state is creating a smart, connected, and future-ready economy.

BUILDING A TECH FUTURE

Anambra is leading Nigeria's tech revolution! 20,000 young people have been equipped with top-tier digital skills, and 1,500 just graduated from the Code Anambra program. With the Solution Innovation District expanding, Soludo is building the next generation of tech innovators!

SOLUTION INNOVATION DISTRICT JOINS IASP

Under Soludo's leadership, the Solution Innovation District has joined the prestigious International Association of Science Parks and Areas of Innovation (IASP). This milestone cements Anambra's place as a future tech powerhouse in Africa!

SOLUTION INNOVATION DISTRICT

Governor Chukwuma Soludo is turning Awka into Africa's Silicon Valley with the launch of the Solution Innovation District (SID). More than just a tech hub, SID is a game-changer—a catalyst to attract global and local tech businesses, foster digital innovation, and position Anambra as a leader in Africa's tech ecosystem.

With a vibrant environment where developers can work, collaborate, and unwind, SID will inspire the next generation of software engineers and tech entrepreneurs to code, innovate, and disrupt the future.

Anambra is not just embracing the digital age—it's leading it!

THE DIGITAL SUPERHIGHWAY

Anambra has launched a 2,000km Fiber Optic Last-Mile Connectivity Project - with 610km already deployed, enhancing high-speed internet access and paving the way for 5G connectivity.

SEAMLESS INTEGRATION INTO THE NATIONAL DIGITAL ECONOMY

Strategic partnerships with the Federal Ministry of Communications, Innovations, and Digital Economy are unlocking digital jobs, investment opportunities, and ICT-driven commerce placing Ndi Anambra at the heart of Nigeria's tech-driven future.

ANAMBRA IS NIGERIA'S UNDISPUTED TECH INNOVATION LEADER!

The nation has taken notice Anambra swept the 2023 National Innovation and Digital Economy Peer Review Awards, emerging as:

- Overall Winner in Digital Technology Development
- No 1 in ICT Infrastructure Expansion
- No 2 in E-Government Implementation
- Recognized for Digital Workforce Development Excellence

The message is clear: Anambra is not waiting for the future - it's building it. With bold leadership, strategic investments, and a relentless focus on technology, Anambra is poised to lead Nigeria and Africa into the digital age!

GOVERNANCE & VALUE SYSTEM

REBUILDING DESTROYED LOCAL GOVERNMENT SECRETARIATS

From ruins to resilience! Governor Soludo has restored governance where it matters by rebuilding 5 LG Secretariats destroyed by violent non-state actors and bringing lasting peace to 138 communities. Stability. Progress. Action!

LOCAL GOVERNMENT SOLAR LIGHTING INITIATIVE

Soludo is lighting the way—literally! With uninterrupted solar power in every LG headquarters, governance has never been this efficient or sustainable!

TECHNOLOGY-DRIVEN LAND ADMINISTRATION

Land titling revolutionized! Over 1,490 C-of-Os issued in record time, Landowners now get their C-of-Os in just one week! Soludo's ANAMGIS system has made land titling fast, transparent, and efficient like never before!

NEW LG LAW AND BUILDING THE LOCAL GOVERNMENT SYSTEM

Governor Soludo is revolutionizing local governance in Anambra! By enacting the Anambra State Economic Planning and Development Law, 2024 and the Anambra State Local Government Administration Law, 2024, his administration is laying the foundation for greater efficiency, transparency, and resource management at the grassroots level.

These reforms will streamline economic planning, strengthen oversight, and foster closer collaboration between the state and local governments, ensuring that every naira spent drives real development. This isn't just governance - it's a commitment to sustainable progress!

FISCAL DISCIPLINE AND FINANCIAL HEALTH

Soludo inherited a technically insolvent state but turned the tide! No new debts. Liabilities are shrinking. The government is doing more with less and timely contractor payments are accelerating development. Every kobo now works for the people! Smart governance, solid finances, a stronger Anambra!

UBEC COUNTERPART FUNDING

Anambra's children deserve the best! By unlocking ₦4.39 billion in education funding through UBEC, Soludo is set to deliver quality schools and brighter futures!

Civil Servants Welfare Enhancement Happy workers, efficient governance! Soludo rewarded civil servants with a 10% salary increase and led the charge on the new minimum wage!

EFFICIENT PENSION MANAGEMENT

Honoring our heroes! Soludo is making sure retirees get their pensions ON TIME while clearing gratuity arrears from 2018. Dignity in retirement is your right.

BUDGIT RECOGNITION

Under Soludo, Anambra is setting the standard for fiscal transparency and accountability. In April 2024, Anambra was No. 1 in Fiscal Transparency and Accountability and No. 3 in fiscal Sustainability. The state's strong financial management ensures that public funds work for the people!

EASE OF DOING BUSINESS RANKING

Investors are choosing Anambra! Ranked No. 1 among all 17 Southern states in the 2023 Ease of Doing Business ranking, Soludo's reforms have turned Anambra into a business-friendly powerhouse, attracting entrepreneurs and unlocking new economic opportunities!

SUSTAINABLE ENVIRONMENT: A GREENER, CLEANER ANAMBRA

Soludo is fighting erosion head-on! By implementing water collection pits across erosion-prone areas, he's preventing land degradation, securing communities, and championing environmental sustainability. A safer, greener Anambra is emerging!

TREE-PLANTING CAMPAIGN

Soludo is leading Anambra's biggest tree-planting drive ever! With 500,000 trees already taking root and a 1 million tree target, he's creating lush, livable cities while combating climate change. A greener future starts today!

EFFICIENT WASTE MANAGEMENT

Waste is no longer a problem-it's an opportunity! Soludo's cutting-edge waste management strategies are turning Anambra into a model of environmental excellence. From innovative waste solutions to city-wide cleanup drives, Anambra is becoming cleaner, greener, and healthier!

WASTE RECYCLING & ENVIRONMENTAL CONSERVATION

Soludo is turning waste into resources! With a waste recycling plant in Nkwelle Ezunaka and a leachate harvesting facility in Awka, his administration is pioneering sustainable waste solutions. Environmental conservation
